PROFESSIONAL SUMMARY

Data Analyst and Automation Developer with approximately 3 years of experience in SQL, Python, Power BI, and the Microsoft Power Platform (Power Apps, Power Automate, SharePoint). Delivered 15+ business applications and automated reporting and billing workflows, reducing manual reporting time by 40%. Experienced in data cleaning, migration, and data quality checks. MSc in Data Science.

WORK EXPERIENCE

Automation Solutions Developer - LeverageAxiom Solutions Pvt. Ltd. Dec 2025 - Sep 2026
Chennai, India

- Collaborated with clients to deliver 15+ business applications using Power Apps and SharePoint, reducing manual data entry and streamlining business workflows.
- Automated billing workflows for 27 electrical meters and 189 parameter tags using SQL and Power Automate, enabling 100% usage-based billing.
- Built a SharePoint filtering tool used by 50+ colleagues to access targeted data without manually modifying URLs, saving 5 hours of manual work per week.
- Took ownership of production workflow improvements across 3 SharePoint lists, resolving 20+ failures and reducing manual intervention by 40%.
- Built a Power Apps finance dashboard to track task progress, reducing manual reporting time by 40%.
- Mentored 3 colleagues on Power Apps inventory solutions, improving project delivery speed by 25%.

Data Analyst - SPK Property Solutions Oct 2023 - Feb 2025
Swansea, United Kingdom

- Optimized 5+ critical SQLite databases through schema redesign and indexing, improving query performance by 50%; ran SQL data-quality checks, scheduled backups, and recovery testing to maintain data integrity.
- Collaborated with booking administrators and cleaning and maintenance teams to develop Freshdesk dashboards for 15+ staff, improving response tracking efficiency by 25%.
- Reduced booking processing time by 83% (from 3 minutes to 30 seconds) by cleaning, transforming, and migrating 3,000 records using Python, regex, and SQLite.

Process Associate - Accenture Jan 2020 - Mar 2020
Chennai, India

- Collected, cleaned, and validated operational data in Excel, resolving missing and inconsistent records before reporting.
- Prepared routine status reports and summaries using Excel formulas and PivotTables to support team performance tracking.
- Maintained process documentation and performed data quality checks to ensure accurate and timely record updates.

EDUCATION

Swansea University Mar 2023
MSc, Data Science Swansea, UK

- Coursework: Machine Learning, Deep Learning, Data Mining and Visual Analytics. Dissertation: interactive A-Level Maths syllabus mind-map using web-based visualization.

DG Vaishnav College Apr 2019
Bachelor of Computer Applications, Computer Applications Chennai, India

SKILLS & CERTIFICATIONS

Analytics & BI: Power BI (DAX, Power Query), Advanced Excel, SQL, Data Validation, Operational Reporting
Programming & Data: Python (Pandas), SQL, Regex, SQLite, PostgreSQL, Stored Procedures, ETL, Data Migration
Power Platform & Automation: Power Apps, Power Automate, SharePoint, Workflow Automation, API Integration
AI & Development: FastAPI, RAG Systems, Google Gemini API, Automated Testing
Certification: The Ultimate MySQL Bootcamp: Go from SQL Beginner to Expert

PROJECTS

QueryMind AI: AI-Powered SQL Analytics Platform Link Oct 2026

- Built a natural-language SQL analytics platform with query validation and interactive visualizations; validated with 63 automated tests across SQL security, query generation, and application functionality.

DocWise AI: Document RAG System Link Oct 2026

- Engineered and evaluated a RAG document retrieval system with hybrid search using 71 automated tests and 41 domain-specific queries, achieving 88% retrieval recall and 0.92 MRR at top-2.

MigrateIQ AI: Data Migration Platform Link Oct 2026

- Built an AI-assisted ETL and data migration platform using Python, FastAPI, PostgreSQL, and Gemini; processed 10,000 synthetic records in 10.48 seconds, reconciled 9,933 successful inserts, and achieved zero duplicates on reruns.
